VEGA PLUS

OEM and R&D services

1. R&D strengths of Vega group

One Academy

Green additives technology research academy

Three Institutes

Preparation technology research institute

Bio-technology research institute

Premix feed research institute

50+ Researchers

Main researchers are from Zhejiang university, who is top 3 university in China.

20+ Year's preparation technology innovation

- Molecular inclusion
- Solid dispersion
- Instant soluble
- Microcapsule
- Pelleted coating
- Sustained release
- Microsphere
- Secondary freeze-dried

Innovative probiotics uniquely

Vega factory, Zhejiang huijia hold the new products certificates of *Bacillus licheniformis*, *Clostridium butyricum* from Agriculture ministry of China, is the probiotics industrial standard maker in China.

High quality premix

2. Business conceptions**Superior R&D****Superior Research****Valuable
Effect**

Biotechnology and preparation technology are used to achieve better effect with lower antibiotic.

Scaled production**Scaled production****Valuable
Efficiency**

One factory, one series; one product, one line, can provide lower cost for animal husbandry by scaled and expert production

Platform distribution**Platform-based
distribution****Valuable
Benefit**

Lower down purchasing cost of customer, achieve higher benefit by integrated product range, one-stop purchasing system.
