VEGA PLUS

REGISTRATION SERVICES FROM VEGA

Vision of Vega is: Let all companies can do exporting and importing business.

Pain point of the industry of feed additives, active pharmaceutical ingredients: Registrations

On registrations, what Vega can do ?

- help Chinese factories to register their products in foreign local market
- distribute the exporting products in foreign local market together with Vega's distributors or partners
- help foreign factories to register their products in China market
- distribute the importing products in China market through Vega's domestic platformed distribution network

1. Registrations

On feed additives, APIs, and premixes, Vega has abilities and sources for any Chinese factories to register their products to target foreign markets, and register foreign factories products into China markets. As well, can do audits, on-site inspection, guidance on factory inspections according to GMP, GMP+, Fami'qs, ISO, etc, product market report, analysis services, field tests, clinic tests...

Vega registration team have 20+ professional staffs, most of them are doctor, and proved specialists with registrations of APIs, feed additives, food additives, premix, etc, Most of them have more than 10 years' registration working experiences.

2. Distribution services

With experiences of decades years in foreign trade business for feed additives, APIs, food additives, premixes, Vega has business with 90+ countries, and in main markets Vega has set distributors in local markets, through the distribution network, Vega can help Chinese factories export their products to foreign local markets.

Vega has established platform distribution network in China domestic market, up to now, 30+ provincial platform, 2000+ one-stop shopping stores. Vega can do one-stop services, registration, importing, marketing, distributions.
