

## ***FOOD ADDITIVES MONTHLY REPORT***

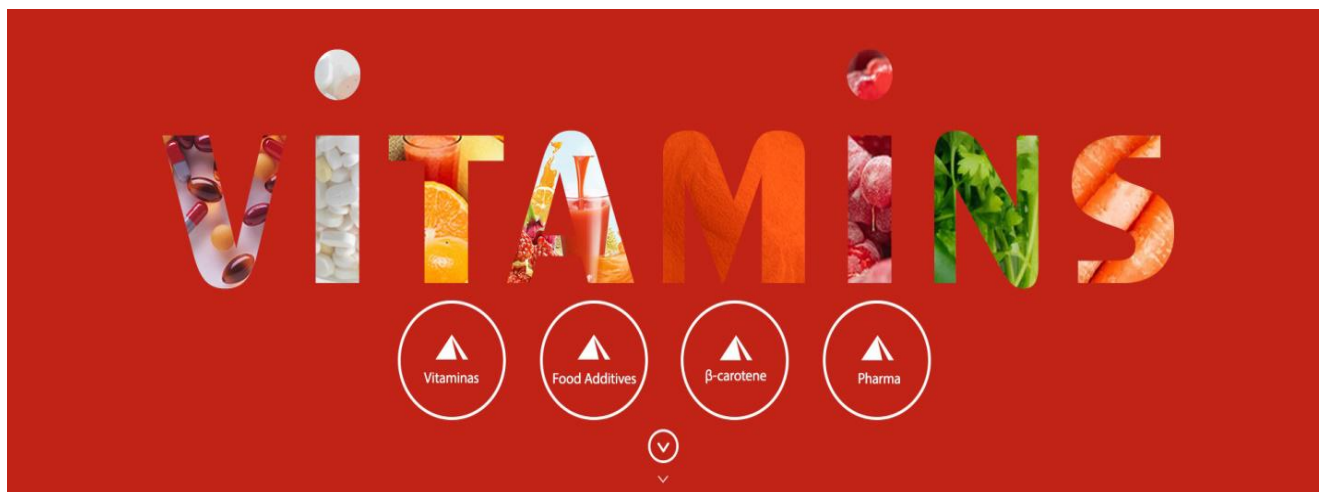

Report Date: Feb 12, 2021

Ver. Jan.2021

# ONE – STOP FOOD ADDITIVES MANUFACTURER AND SUPPLIER

## Catalogue

### 1. Vitamins:

- 1) Vitamin A
- 2) Vitamin D3
- 3) Vitamin E 50% CWS /VE Oil 98
- 4) Vitamin C/Coated 97/DC97
- 5) Vitamin B1 Mono/Hcl
- 6) Vitamin B5/D-Calcium Pan.
- 7) Folic Acid
- 8) Biotin 98%

### 2. Sweeteners

- 1) Glucose series
- 2) Erythritol
- 3) Aspartame
- 4) Sucralose
- 5) Saccharin Sodium

### 3. Acidulants

- 1) Citric acid series
- 2) Taurine
- 3) DL-Malic acid

### 4. Preservatives

- 1) Sorbic Acid /Potassium  
Sorbate
- 2) Sodium Benzoate

### 5. Antioxidants:

- 1) Sodium Erythorrate
- 2) Sodium Ascorbate

### 6. Other products

- 1) Coenzyme Q10
- 2) Inositol

## Vitamins

### Vitamin A

Now the price of Vitamin A Feed grade raised much, and the Food grade also raised some. For the VAP250, the price is at about USD26/kg, and the price of VA 1.7 at about USD95-100/KG.

### Vitamin D3

There is a good demands for the D3, it's said that it's better than Vitamin C to stop the COVID. Now the current price of VD3 100CWS is at about USD13/kg, and the price of VD3 40MIU at about USD2700/kg.

### Vitamin E 50% CWS /VE Oil 98%

Now the price also keeps rising before Chinese New Year, and goods is tight. Now the current price for VE 50% CWS at about USD13-15/KG, and the price of VE Oil 98% at USD15-16/Kg. The price will keep rising after the Chinese New Year's holiday.

### Vitamin C/Coated 97/DC97

Now the goods is tight and the price keep rising because the Covid-19. It's said the price will keep rising in the Q1 and Q2. Now the current market price of Vitamin C at USD7-10/Kg and our stock for each brand also is limited.

### Vitamin B1 Mono/Hcl

The stock of VB1 is limited in the market, and the manufacturers control the offer and delivery strictly, so that the market is tight and the price keeps rising. The current price for VB1 Mono is at USD24-26/KG and the VB1 Hcl at USD32-34/KG.

### D-Calcium Pan.

The price in the bottom level, more and more customers would like to sign the long-term orders or do the stock for the 2021, so that the goods are tight for the brands of Xinfu and Xinfu. Maybe the price will rise after the CNY.

### Folic Acid

The price have raised much in the past month, the price of feed grade have raised from USD24/kg to about USD34/kg . And the price food grade rise to more than USD40/kg , our stock also is limited.

### Biotin 98%

Now the price still in the low level, but we can found that the goods is tight from famous brands and the price also began to rise. Now the current price is at about USD350/KG.

## Sweeteners

### Glucose series

In January 2021, glucose was affected by the increase in the price of raw corn, and the FOB price in the international market at the end of January increased by USD100-120/T compared with the beginning of January.

At present, the FOB price of various manufacturers of anhydrous dextrose is about USD770-800/MT, and the FOB price of various manufacturers of dextrose monohydrate at about USD650/MT. At present, the price of corn continues to be high and there is no downward trend. And with the logistics situation at the end of the year, As the epidemic situation intensifies, the price of glucose continues to rise, and the price trend after the year will still depend on the rise and fall of raw corn.

### Erythritol

The raw material used for erythritol is anhydrous glucose, which is also affected by the price increase of corn. The price has been rising in January. The price was around FOB USD2.1-2.5/kg at the beginning of the month. The current price has risen to around FOB USD3/KG . The delivery time of various manufacturers is tight. After the production is scheduled for the year, the price increase in the later period is based on the rise and fall of

corn.

### Aspartame

The current price is at a mid-to-high level, and the market FOB price is around FOB 13 US dollars. The subsequent price is stable. GSWEET is expected to produce in April. After the production, it maybe will have a certain impact on the price.

### Sucralose

Affected by the increase in the price of the raw material dimethyl formamide, the factory delivery is tight, and the FOB price of each factory is about 27-30 US dollars. The subsequent market is temporarily stable, and the current factory delivery is more than one month.

### Saccharin Sodium

Prices in January rose slightly from the end of December, mainly due to rising raw material prices and increased market demand. The FOB price of 20-40 mesh from manufacturers is between USD6.3-6.7/kg, and the anhydrous sodium saccharin is between USD8-8.6/KG. The price is expected to rise after the year, and the increase is expected to be around USD0.2/Kg

## Acidulants

### **Citric acid series**

The raw material of citric acid is also corn. The delivery of the factory is also very tight, and the basic shipment will be released in February and February of the year. The current market price of anhydrous citric acid is between FOB USD950-980/MT, and the price of citric acid monohydrate is between FOBUSD870-920/MT. The later price trend follows the rise and fall of raw corn.

### **Taurine**

The price of taurine has been at the bottom to maintain stability. In mid-to-late January, due to the impact of logistics, natural gas, and raw materials at the end of the year, there was a slight increase. The factory's current delivery date for orders is already in early March 2021. The current market FOB price of taurine is 2-2.3 US dollars, and the price is also the lowest in recent years, which is a good time to purchase.

### **DL-Malic acid**

The price is stable

## Preservatives

### **Sorbic Acid /Potassium Sorbate**

The price was begun to raise from the Dec., 2020, the current price at about USD5.9/kg /USD4.9/kg, we think that the price will keep rise after Chinese New Year.

### **Sodium Benzoate**

The current price is at about USD1.4/KG.

## Antioxidants

### **Sodium Erythorlate**

The price keeps rising quickly in the past months, now the current price rise to about USD3.6/kg.

### **Sodium Ascorbate**

The also keep rising because that the good demands for the Covid-19 and the raw materials keep rising. Now the current price is at about USD9-10/KG.

## Other Products

### **Coenzyme Q10**

The price still keep the high Level , we advise to buy against the current demands.

### **Inositol**

The price began to rise from a month ago, because of the Covid-19, some main manufacturers stop supplying, and the goods from other manufacturers are tight .

**VEGA GROUP**
