

FOOD ADDITIVES MONTHLY REPORT

Report Date: Mar.30,2021

Catalogue

1. Vitamins:

- 1) Vitamin A
- 2) Vitamin D3
- 3) Vitamin E 50% CWS /VE Oil 98%
- 4) Vitamin C/Coated 97/DC97
- 5) Vitamin B1 Mono/Hcl
- 6) Vitamin B5/D-Calcium Pan.
- 7) Folic Acid
- 8) Biotin 98%

2. Sweeteners

- 1) Glucose series
- 2) Erythritol
- 3) Aspartame
- 4) Sucralose
- 5) Saccharin Sodium

3. Acidulants

- 1) Citric acid series
- 2) Taurine
- 3) DL-Malic acid

4. Preservatives

- 1) Sorbic Acid /Potassium Sorbate
- 2) Sodium Benzoate

5. Antioxidants:

- 1) Sodium Erythorate
- 2) Sodium Ascorbate

6. Other products

- 1) Coenzyme Q10
- 2) Inositol

Vitamins

Vitamin A

The price of Vitamin A raised some for food in march. For the VAP250, the price is at about USD26/kg, and the price of VA 1.7 at about USD100/KG.

Vitamin D3

The demands for the VD3 is increasing because of the COVID. Now the current price of VD3 100CWS is at about USD14/kg, and the price of VD3 40MIU at about USD2800/kg. Because that the main manufacturer control the rawmaterials, the price will keep rise .

Vitamin E 50% CWS /VE Oil 98%

Now the price keep rising still, and the goods is tight. Now the current price for VE 50% CWS at about USD14-15/KG, and the price of VE Oil 98% at USD16-17/Kg.

Vitamin C/Coated 97/DC97

Now the price is high still because of the Covid-19. Now the current market price of Vitamin C at USD6-8/Kg because some distributors offer the low price when they got some goods from the manufacturers. It's said the manufacturers will plan to rise the price in Q2..

Vitamin B1 Mono/Hcl

The stock of VB1 is limited in the market, and the manufacturers control the offer and delivery strictly, so that the market is tight and the price keeps rising. The current price for VB1 Mono is at USD24-26/KG and the VB1 Hcl at USD32-35/KG.

D-Calcium Pan.

The price rised much in March, but the price is low level still, more and more customers would like to sign the orders or do the stock for the 2021. the market price at about USD10-11/kg.

Folic Acid

The price have raised much in Jan. and Feb., the price of feed grade rised about USD34/kg . And the price food grade rise to about USD38/kg , our stock also is limited.

Biotin 98%

Now the goods is tight still from famous brands and the most manufacturers stop offering. Now the current price of market rise to about USD400/KG. Maybe will keep rising.

Sweeteners

Glucose series

In March 2021, the price of main rawmaterial "Corn" was began to drop. At present, the FOB price of various manufacturers of Anhydrous dextrose also dropped, now the current price at about USD750-780/MT, and the FOB price of various manufacturers of dextrose monohydrate at about USD620-630/MT. The price will be more posible to drop some in April.

Erythritol

The raw material used for erythritol is anhydrous glucose, which is also affected by the price increase of corn. The price keep rising from January. Now the price at about FOB USD3.5/kg and the delivery time from various manufacturers is very tight. Some manufacturers begin to offer it with the delivery in May or June.

Aspartame

The current price is in high level, and the market FOB price is around 15-17/kg US dollars. GSWEET stop producing still and expected to produce in June , and the manufacturer Sinosweet also stop producing. The subsequent price will be stable in high level.

Sucralose

Affected by the increase in the price of the raw material dimethyl formamide, some manufacturers begin to stop producing, the factory delivery is tight, and the market demands is good, the current FOB price of each factory is about 26-30/kg US dollars. So we think the price will rise a little in April and later, and the current price is in low level still, so i advise to puchase earlier .

Saccharin Sodium

Price and delivery date will be stable in short time due to the raw material is stable. The FOB price of 20-40 mesh from manufacturers is between USD6.5-6.8/kg, and the anhydrous sodium saccharin is between USD8.3-8.6/KG.

Acidulants

Citric acid series

The delivery date from the factory is still very tight. The current market price of anhydrous citric acid is more than FOB USD1050/MT, and the price of citric acid monohydrate is about FOB USD980/MT. The later price trend follows the rise and fall of raw corn.

Taurine

The price of taurine keep rising from Feb.,2021. The factory's current delivery date for orders is tight and the current market FOB price of taurine is 2.5/kg US dollars, we advise to check the demands in Q2 and it's better to purchase this product earlier, because that the manufacturers plan to rise the price again .

DL-Malic acid

The price is stable recently, but the delivery date will be in June or even to Nov., the current price is at about USD2.5/kg for FOB. Maybe it will keep rising some in April.

Preservatives

Sorbic Acid /Potassium Sorbate

The price was began to rise from the Dec., 2020, now the all manufacturers stop offering because that the price of rawmaterials rising and the delivery is tight . We think the manufacturers will begin to offer in next week .

Sodium Benzoate

The price is at stable at about USD1.5/KG and th.e delivery also is stable

Antioxidants

Sodium Erythorlate

The price keeps rising quickly in the past months, now the demands is not strong, the current price rise to about USD3.5-4.5/kg FOB.

Sodium Ascorbate

The price keep rising because that the good demands for the Covid-19 and the raw materials keep rising in the past monthes. Now because the price in high level and some traders have got some stock in hands, so that there is some lower price at about USD7-10/kg in the market.

Other Products

Coenzyme Q10

The main manufacturers rised the price again in March, the price will keep stable in the high Level , we advise to buy against the current demands.

Inositol

The price began to rise from Jan or Feb. 2021, because of the Covid-19, now the goods from the manufacturers are tight and price also keep rising . The current price at about USD3.8/kg- USD5/kg from different manufacturers.
