

FOOD ADDITIVES MONTHLY REPORT

Report Date: June.29,2021

Catalogue

1. Vitamins:

- 1) Vitamin A
- 2) Vitamin D3
- 3) Vitamin E 50% CWS /VE Oil 98%
- 4) Vitamin C/Coated 97/DC97
- 5) Vitamin B1 Mono/Hcl
- 6) Vitamin B5/D-Calcium Pan.
- 7) Folic Acid
- 8) Biotin 98%

2. Sweeteners

- 1) Glucose series
- 2) Erythritol
- 3) Aspartame
- 4) Sucralose
- 5) Saccharin Sodium

3. Acidulants

- 1) Citric acid series
- 2) Taurine
- 3) DL-Malic acid

4. Preservatives

- 1) Sorbic Acid /Potassium Sorbate
- 2) Sodium Benzoate

5. Antioxidants:

- 1) Sodium Erythorate
- 2) Sodium Ascorbate

6. Other products

- 1) Coenzyme Q10
- 2) Inositol

Vitamins

Vitamin A

The price of Vitamin A is stable in June and we think it will keep stable in Q3, because the NHU declared that they will stop producing for a long time in summer and BASF also declared that they will delay the supplying of Vitamin A. For the VAP250, the price is at about USD26-30/kg, and the price of VA 1.7 at about USD100/KG.

Vitamin D3

The demands for the VD3 is increasing because of the COVID. But the price of D3 is stable, the current price of VD3 100CWS is at about USD14/kg, and the price of VD3 40MIU at about USD2600-2800/kg. Even the price is stable, but considering that the manufacturers have the plan to push the price to rise, we also need to pay attention the price of D3 rise again, too.

Vitamin E 50% CWS /VE Oil 98%

The price keep rising quickly in May, and the goods is tight because of DSM bought from the market. Now considering that the NHU and ZMC stop producing in Summer and DSM maybe will delay the supplying again, the price will keep rising or stable at least . The current price for VE 50% CWS is more than USD15/KG, and the price of VE Oil 98% is USD21-23/Kg.

Vitamin C/Coated 97/DC97

Now the price is high still because of the Covid-19. But the market price of Vitamin C dropped in May. However, the manufacturers don't like the price keep droppin and Tiger also stop producing always in 2021, so that the price is possible to rise again, now we got the news that the manufacturers will reduce the supplying and will plan to rise the price again . We need to pay attention the action of Manufacturers in June.

Vitamin B1 Mono/Hcl

The stock of VB1 is limited in the market, but there is some traders and manufacturers to win the orders with a lower price. The current price for VB1 Mono is at USD21.5-23/KG and the VB1 Hcl at USD30-33/KG from different manufacturers. It's said that the price of B1 is in the bottom now, we need to pay attention the price will rise again.

D-Calcium Pan.

The price rised much in March and now the price is stable, but the price is still in low level and the demands of the market is not strong, the current market price at about USD10-11/kg.

Folic Acid

The price have raised much from May to Jun., the current market price of feed grade at about USD35-36/kg from small manufacturers , the market price from big manufacturers is more than USD40/kg, but the price from big manufacturers is more than45/kg , and the price food grade at about USD45-50/kg . Our stock also is limited .

Biotin 98%

Now the demands is soft, all manufacturers stop offering or offer stable still, but the traders like to sell in a lower price. Now the current price of market at about USD360-400/KG from the market.

Sweeteners

Glucose series

The price of main rawmaterial “Corn” was began to stable. At present, the FOB price of various manufacturers of Anhydrous dextrose also stable, now the current price at about USD770/MT, and the FOB price of various manufacturers of dextrose mono. at about USD590/MT. The price will be stable in June.

Erythritol

Now the supplying of Erythritol from each manufacturers is tight still. The current price at about FOB USD5.5/kg, considering that the summer is coming, the demands of Erythritol will keep increasing , so that the price will keep stable or increasing in June still.

Aspartame

The current price is in high level, and the market FOB price is around 17/kg US dollars. GSWEET stop producing still and expected to produce in July , and the manufacturer Sinosweet also stop producing. The price will be stable in high level and the delivery is tight still.

Sucralose

Affected by the increase in the price of the raw material dimethyl formamide, some manufacturers begin to stop producing, the factory delivery is tight, and the market demands is good, the current FOB price of each factory is about 29-30/kg US dollars. So we think the price will rise a little in July .

Saccharin Sodium

The Price is rising due to the price of raw material risen and the problem of environment . Now the FOB price of 20-40 mesh from manufacturers at about USD6.5/kg .

Acidulants

Citric acid series

The delivery date from the factory is tight recently because of the price of rising. The current market price of anhydrous citric acid at about FOB USD1050/MT, and the price of citric acid monohydrate is about FOB USD950/MT. The current price will be stable or keep rising, we need to pay the action of manufacturers in summer .

Taurine

The price of taurine keep rising from Feb.,2021. The rawmaterials of factory's price is more possible to rise in July . The current market FOB price of taurine at about 3/kg US dollars, and the price from the manufacturers at about USD3.1/kg. We advise to check the demands in Q3 and it's better to purchase this product earlier, as the news we got, the price will keep rising in July.

DL-Malic acid

The price is stable recently, but the delivery date is late and the goods is very tight for some manufacturers, some delivery date even to Nov., and the current price of DL-Malic Acid is at about USD2.5/kg or higher with FOB.

Preservatives

Sorbic Acid /Potassium Sorbate

The price was began to rise from the Dec., 2020, now the price of Sorbic Acid at about USD5.5/kg and the price of Potassium sorbate at about USD4.4/kg, but both of them in high level, considering the manufacturers need to stop producing in summer, the price and supplying will be stable in high level.

Sodium Benzoate

The price is at stable at about USD1.3-1.4/KG and the delivery also is stable, even the price of rawmaterial is rising, the price of Sodium Benzoate will be stable.

Antioxidants

Sodium Erythorlate

The price keeps rising quickly in the past months, now the demands is not strong, the current price is stable at about USD3.5/kg FOB. And the supplying from each manufacturers also is stable .

Sodium Ascorbate

The price keep rising because that the good demands for the Covid-19 and the raw materials keep stable in high level in the past monthes. Now consider that the manufacturers will stop producing in summer and the the stock from the market is limited , so that the price will be stable at about USD7-8/kg or will keep rising again.

Other Products

Coenzyme Q10

The main manufacturers rised the price again in March, the price keep stable in the high Level still, but some new manufacturers begin to produce Q10, we advise to buy against the current demands and pay attention the action of the manufacturers.

Inositol

The price began to rise from Jan or Feb. 2021, because of the Covid-19, now the goods from the manufacturers are tight and price also keep rising . The current price at about USD4.5/kg- USD6.5/kg from different manufacturers.
