## Catalogue

### 1. Vitamins:

- 1) Vitamin A
- 2) Vitamin D3
- 3) Vitamin E 50% CWS /VE Oil 98%
- 4) Vitamin C/Coated 97/DC97
- 5) Vitamin B1 Mono/Hcl
- 6) Vitamin B5/D-Calcium Pan.
- 7) Folic Acid
- 8) Biotin 98%

### 2. Sweeteners

- 1) Glucose series
- 2) Erythritol
- 3) Aspartame
- 4) Sucralose
- 5) Saccharin Sodium

### 3. Acidulants

- 1) Citric acid series
- 2) Taurine
- 3) DL-Malic acid

### 4. Preservatives

- 1) Sorbic Acid /Potassium Sorbate
- 2) Sodium Benzoate

### 5. Antioxidants:

- 3) Sodium Erythorlate
- 4) Sodium Ascorbate

### 6. Other products

- 5) Coenzyme Q10
- 6) Inositol

## Vitamins

### Vitamin A

The price of Vitamin A is stable in Sep., as the news from BASF, the production and supplying is still not normal till to the Q4, we need to pay attention to the supplying of BASF and DSM. After the overhaul of Chinese manufacturers, the supplying from China is normal. Now for the VAP250, the price is at about USD25.5-29.5/kg, and the price of Vitamin A 1.7 Miu still at about USD95/KG.

### Vitamin D3

The price of D3 rose in Sep., and we think it will keep rising in 2021. Now Zhejiang Garden stopped production for technology improvement, and the manufacturer Haisen also faces the problem of production. Let's pay attention on the action of the main manufacturers. The current price of VD3 100CWS is at about USD13.0-15.5/kg, and the price of VD3 40MIU at about USD2800-3000/kg.

### Vitamin E 50% CWS /VE Oil 98%

The market price increased a few in Sep. and consider the raw materials' price keep rising in short future, the price will keep rising in Oct.. Now ZMC, BASF, DSM and all manufacturers stop quoting. The current price for VE 50% CWS is about USD15-16/KG, and the price of VE Oil 98% is USD21-23/Kg.

### Vitamin C/Coated 97/DC97

The market price of Vitamin C is dropped much in Sep.. Some manufacturers willing to go down for supplying. And considering that the quantity supplying for Vitamin C is big in the first half of this year, the price of Vitamin C will keep to drop some in Oct., now the current price at 5.2-5.5USD/KG. Paying attention next actions of Manufacturers in Q4.

### Vitamin B1 Mono/Hcl

Main manufacturers stopped offering due to the raw material increased lot. Market demand of Vitamin B1 is increasing, now it is priority to consume the stock on market. The current price for VB1 Mono is around USD22/KG and the VB1 Hcl around USD31/KG.

### D-Calcium Pan.

The price of vitamin B5 D-Calcium Pantothenate is keeping little tight in September. The current market price at about USD11.5-12/kg.

### **Folic Acid**

Main factory has increased price obviously, since the raw material of market price is also increasing. Market price of Folic Acid is still in high level. Food grade Folic Acid price is at around USD42/kg.

### **Biotin 98%**

Due to local policy of electricity control and raw material tight, product is being little tight in the market. The current Biotin 98% price at about USD350-390/KG. Attention to delivery situation.

## **Sweeteners**

### **Glucose series**

Price of glucose in Sep slightly raised; Dextrose monohydrate price is USD600+/MT FCA main port; Dextrose anhydrous price is around USD800+/MT FCA main port. Following price depends on the demand, supply and corn price. Since China government control use of powder, production was affected for most manufacturers, there is risk of price rising and supply in Oct.

### **Erythritol**

The manufacturers' supply of erythritol still keeps tight. With the entry of new manufacturers, the current market price dropped to around USD4/KG.

### **Aspartame**

Market is very strong and sharply up. Now some factory increase price to around FOB\$19.5, and delivery it extremely tight at least one month. The main reason is for the increasing cost of raw material sugar. Moreover, now government announce limitation policy for production and energy use. Market is further tight.

### **Sucralose**

The price of raw materials rised much, so that the all manufacturers rised the price of Sucralose much . The current market price rised to around USD45/kg.

### **Saccharin Sodium**

Now the price is Stable. Currently other related sweetners increase and get tight. Need pay attention on it

## Acidulants

### Citric acid series

Citric acid price crazy raised in Sep, because of big demand. Supply very tight, some manufacturers delivery time for CAA already in year 2022 and most stop quotation. Current market price of anhydrous citric acid higher than FOB US1550/MT, and the price of citric acid monohydrate higher than FOBUSD1450/MT. Sodium citrate about 1500USD/MT. Considering of all market conditions, think price will keep rising, and supply keep tight. Suggest buy soon.

### Taurine

Recently, the quotations from manufactures have risen slightly, and the supply is normal. In the latest news, major manufacturers of taurine have just stopped quoting. It is expected that the quotation will be resumed after the National Day holiday in China, and the quotation will increase. The current market price is at US\$3.1-3.2 per KG.

### DL-Malic acid

Delivery time is very tight recently and there are a lot orders waiting to 2022. Demand also good. Marketprice about 2.8USD/KG.

## Preservatives

### Sorbic Acid /Potassium Sorbate

Affected by the increase in the price of raw material glacial acetic acid and the domestic curtailment of electricity production and the dual control of energy consumption, the price of potassium sorbate has increased by about USD0.6/KG, and the current price is about USD4.8/kg, and the delivery of various manufacturers is tight. At present, manufacturers have basically stopped reporting, and the subsequent prices of products continue to rise. And the price of sorbic acid is about USD5.8/kg.

### Sodium Benzoate

The manufacturer offer at about 1.25USD/KG, and the price is on a upward trend.

## Antioxidants

### Sodium Erythorlate

Price stable as last month, market price at about USD3.4-4/kg FOB. The supplying also stable, we advise to buy against the demands.

### Sodium Ascorbate

The price is around USD6-6.5/kg. The market is not strong, and VC is generally weak.

## Other Products

### Coenzyme Q10

At present, Q10 price is stable. Mainstream manufacturers offer at USD450-500/kg FOB. Market transaction price is slightly lower. New brands price is lower. Advise to buy against the current demands.

### Inositol

Now the delivery time of inositol is very tight, and the delivery time of individual factories has been scheduled to April 2022. The quotations from manufacturers have also continued to rise. Now mainstream manufacturers are quoting US\$10-11, and individual factories are quoting about US\$9.
