Catalogue

1. Vitamins:

- 1) Vitamin A
- 2) Vitamin D3
- 3) Vitamin E 50% CWS /VE Oil 98%
- 4) Vitamin C/Coated 97/DC97
- 5) Vitamin B1 Mono/Hcl
- 6) Vitamin B5/D-Calcium Pan.
- 7) Folic Acid
- 8) Biotin 98%

2. Sweeteners

- 1) Glucose series
- 2) Erythritol
- 3) Aspartame
- 4) Sucralose
- 5) Saccharin Sodium

3. Acidulants

- 1) Citric acid series
- 2) Taurine
- 3) DL-Malic acid

4. Preservatives

- 1) Sorbic Acid /Potassium Sorbate
- 2) Sodium Benzoate

5. Antioxidants:

- 3) Sodium Erythorinate
- 4) Sodium Ascorbate

6. Other products

- 5) Coenzyme Q10
- 6) Inositol

Vitamins

Vitamin A

The market price of Vitamin A was still on slowly increasing. The News from DSM, Production Output for Q4, 2021 will cut down to 70% and the price will rise 15%. Chinese manufacturers' output also decrease a lot due to Lack of energy. Market dealing active than last month. For the VAP250, the price is at about USD26-30/kg, and the price of Vitamin A 1.7 Miu still at about USD100-103/KG.

Vitamin D3

The market price of D3 increased a few and consider will increase again. Zhejiang Garden resume production after technology improvement. Market dealing active than last month. Now the current he current price of VD3 100CWS is at about USD12.5-16kg, and the price of VD3 40MIU at about USD2850/kg.

Vitamin E 50% CWS /VE Oil 98%

The market price was still on increasing. Market News said the raw material for Vitamin E is supplying tight, main manufacturers stop quoting. DSM Chinese Plant stop production for overhaul from mid of September for 6 weeks. The current price for VE 50% CWS is about USD16.8/KG, and the price of VE Oil 98% is USD23-24/Kg.

Vitamin C/Coated 97/DC97

The market price of Vitamin C increasing a lot in Oct. , and the manufacturers increased the price to USD8/kg. Vitamin C price is about USD7/KG. Paying attention next actions of Manufacturers in Nov., the manufacturers maybe will keep price increasing .

Vitamin B1 Mono/Hcl

Main manufacturers quote and sign new order with limited quantity. Market stock is quite tight. At present new order mainly consume the stock materials. Market price is expected to rise up slightly later period. The current price for VB1 Mono is around USD27/KG, and VB1 Hcl is above USD36/KG.

Vitamin B2 98%

Due to electricity decreased using and lack of materials the B2 factories are rising a lot. The current pricing is around USD 52-58/KG depending brand and quantities.

D-Calcium Pan./Vitamin B5

Some of factories's production capacity are shortened due to local government policy, there price is keeping very strong, right now the pricing is around USD15/kg, and the price of main manufacturers is higher.

Folic Acid

Raw material of Folic Acid market price is also increasing. Main manufacturers strongly increase the price, and market price continue to rise up slightly, and supply is tight. Food grade Folic Acid price is around USD50/kg.

Biotin 98%

NHU raised the prices in the market several days ago and the transactions are being very active, the spot products are keeping consumed and right now the price is up to USD 500/KG or more, very sensitive now.

Sweeteners

Glucose series

Since most raw materials keep rising, glucose also raised in Oct. Mono price raised 120-150USD compared with last month, anhydrous raised about 50usd/mt. Current price of mono almost up to more than 700usd/mt fob and anhydrous more than 850usd/mt. Suggest buy ASAP.

Erythritol

The manufacturers' supply of erythritol still keeps tight. With the entry of new manufacturers, the current market price dropped to around USD4/KG.

Aspartame

The factory's productivity is insufficient, and there is little goods supply on the market with tight delivery. Current market price is around USD 25/KG. It's extremely tight at least one month. The main reason is for the increasing cost of raw material sugar. Moreover, now government announce limitation policy for production and energy use. Market is further tight.

Sucralose

The price of raw materials rised much, so that the all manufacturers rised the price of Sucralose much . The current market price rised to around USD65/KG.

Saccharin Sodium

Affected by environmental protection and production safety issues and the rising price of raw materials, manufacturers have increased their quotations, and it is expected continue to rise in the future. The current market price of is around USD8.8/KG.

Acidulants

Citric acid series

Citric acid price keep rising in Oct, cuurent offer of CAA higher than 2000usd/mt FOB and very hard to buy goods. Market change very quickly, and supply still very tight, new delivery almost in year 2022. Still suggest buy ASAP for any if there is need and please pay attention to delivery time very much.

Taurine

As the price of raw material ethylene oxide rises, the price of taurine also rises further. At present, each manufacturers stop offering. New quotation is more than USD3.8 per kilogram. The delivery time of manufacturers have scheduled to Dec.,it is expected that prices will continue to rise.

DL-Malic acid

Delivery time is very tight recently and there are a lot orders waiting till may of next year. Demand also good. Market price about 3.3USD/KG.

Preservatives

Sorbic Acid /Potassium Sorbate

Affected by the increase in the price of raw material glacial acetic acid and the domestic curtailment of electricity production and the dual control of energy consumption, the current price of potassium sorbate is about USD5.15/kg, and the delivery of various manufacturers is tight. And the price of sorbic acid is about USD6.15/kg.

Sodium Benzoate

The price of sodium benzoate has risen a lot, now it is about 2.1USD/KG, and the price is expected to continue to rise.

Antioxidants

Sodium Erythorate

Delivery is tight, has been scheduled to January next year, market about USD3.6-4/kg FOB.

Sodium Ascorbate

The market for sodium ascorbate is similar to the ascorbic acid powder, and is now rising rapidly.

Other Products

Coenzyme Q10

At present, Q10 price is stable. Mainstream manufacturers offer at USD500-520/kg FOB. Market transaction price is slightly lower. New brands price is lower. Advise to buy against the current demands

Inositol

At present, the major manufacturers in China are still stopping quotations, and the delivery time is very tight. The latest delivery date has been scheduled to February next year. There is very little spot inventory on the market. The current market price is about USD13/KG or higher.
