Vega, China Vitamins Manufacturer

News

1 Vitamin

Zhejiang Pharmaceutical Co., Ltd. has a annual output of 160 tons β -carotenoids and an annual output of 200 tons of spotted crickets. It has been completed at the end of June 2022. The bioin project and joint production product production line have not yet been completed.

2 Amino Acids | Threonine

Recently, the market price of Threonine is stable. At present, the price of manufacturers is about 1.45/kg, and the transaction is weak. There are fewer inquiry orders, and the user side still has inventory. Also the exchange rate affects the export quotation of the factory to temporarily stable, need to pay attention to the factory delivery situation.

3 API

Sulfonamide Series Product, the market is weak and the price is stable. Sulfadimidine (sodium), the market quotation is within USD12, and it is temporarily stable in the short term.

4 Food Additives | Seaweed sugar

Recently, the price of seaweed sugar in food additives has stabilized, and the domestic market transactions are around USD1-1.1/kg.
