Vitamins

The vitamin market as a whole is weak, and only B6 transactions are strong; VE stop to report and sign, and the market rises slightly; Pan-calcium continues to fall, but mainstream factories are willing to keep prices, and customers mainly buy for use immediately; Niacinamide weakens, strong market willingness to ship.

Amino Acids

Lysine Hcl: The quotations of domestic factories are adjusted strongly, the trade market is stable and strong, the transaction is increasing, the factory delivery is tight, and the factory delivery situation will be paid attention to in the later stage;

Threonine: the market price is mainly stable this week, and the supply in the market is expected to increase in the later stage , It is expected that the price of threonine will continue to be stable and slightly adjusted.

API

This week, the veterinary drug raw material market remained weak, and the demand was still dominated by just-needed purchases. OTC HCL and amoxicillin remained stable. Some factories will undergo high-temperature maintenance in August, and more attention can be paid later.

Food Additives

Recently, the National Health and Medical Commission issued the "Announcement on 8 Kinds of "Three New Foods" “” . Approved X. sorbifolium seed kernel, X. sorbifolium leafas a new food raw material.
