01

Vitamin

Recently, the annual production of 50 tons of vitamin A derivatives and 750 tons of lipoic acid series products of Xiamen Jindawei Vitamin Co., Ltd. has been approved and announced on the relevant website.

02

Amino Acids | Lysine Hcl

Lysine Hcl: At present, the quotations of manufacturers in the domestic market are stable and slightly adjusted, and the export quotations are between USD1.23-1.25. The operating rate of the industry has increased slightly. As a result, the market spot is tight, and the factory's delivery progress will be paid attention to in the later stage.

03
API

Recently, the market price of tylosin has been stable, but its downstream tilmicosin has recently attracted market attention. There are stock inquiries and purchase orders. The market inventory is small and the quotation has increased. However, under this year's general environment, stocking needs to be cautious. At present, the market price of Tylosin tartrate is about 245 yuan/KG, that of tilmicosin phosphate is about 270 yuan/KG, and that of tilmicosin is about 320 yuan/KG.

04

Food Additive | Sucralose

Recently, due to the production adjustment of domestic manufacturers and the impact of market demand, the transaction price of food additive sucralose in the domestic market has dropped to about 135 RMB/KG, and the transaction price in the foreign market is about 16.8 US dollars/KG. The price of sucralose will stabilize in the short term in the future .
