

VEGA DAILY

VITAMINS TO VEGA

Vega, China vitamins manufacturer

11th. Aug, 2023

Vitamin

Anhui Tiger Vitamin Industry Co., Ltd. has obtained a production license for vitamin E mixed feed additives, and the certificate is valid from 2023-08-02 to 2028-08-01.

Amino Acid

In recent days, due to the continuous increase in corn prices, the unwillingness of upstream corn manufacturers to sell corn now, and the rising price of soybean meal, domestic orders for small varieties of amino acids such as tryptophan and valine have increased rapidly. The price began to turn from weak to strong, and some manufacturers chose to stop reporting and wait and see.

API

For enrofloxacin/enrofloxacin hydrochloride, the recent market demand is average, the price is running weak, and the supply of factory goods is sufficient. At present, the export price of mainstream factories is around USD23.7/KG, and it is expected to remain weak and stable in the short term.

Food additives

Recently (Wei Shi Xin Shen Zi (2023) No. 0009) D-psicose issued an extension notice, and (We Shi Xin Jin Shen Zi (2023) No. 0001) green oat extract issued a notice of opinion. It has been observed that these two raw materials are likely to require a large amount of supplementary review materials.
