### Vitamins

The overall vitamin market is weak, and the market have not changed much. B6 price rising is not as expected, but mainstream factories still stop quotation, and have strong willingness to raise prices; Nicotinamide continues to fall, and customers wait and see; Inositol market is weak, customers mainly purchase according to the demand; Calcium pantothenate fell slightly, the market price is broad; VE domestic transactions rose slightly, exports and international markets were stable.

### Amino Acids

Recently, due to the rise in corn prices and the increase in soybean meal prices, small varieties of amino acid tryptophan, valine and isoleucine domestic factories have signed more orders, the market is tense, some factories have stopped signed new order and wait, and the overall market purchasing and selling atmosphere of lysine hydrochloride has improved, inquiries have increased, and the factory's price sentiment is strong. Follow up to pay attention to the factory's orders.

### API

This week, the veterinary drug raw material market is running smoothly, the market is stable, the price of some varieties is hovering at the bottom, and the factory has strong willing to rise the price. Doxycycline price shock, florfenicol weak stable operation, Amoxicillin, Tylosin, oxytetracycline are stable. Continue to pay attention later.

### Food Additives

Cofco Packaging recently announced that it has been advised by China Baowu Group, a potential purchaser, that (i) it is in negotiations with CoFCO Group(COFCO) regarding the possible acquisition of some or all of the shares beneficially owned; And (ii) The potential purchaser also intends to acquire additional shares from other shareholders of COFCO Packaging and may result in a general cash offer.
