

VEGA DAILY

VITAMINS TO VEGA

Vega, China vitamins manufacturer

25th. Aug, 2023

Vitamin | Vitamin E

According to the maintenance plan issued by each company before, Jilin Beisha began maintenance at the beginning of July, and it is expected to finish maintenance around mid-August, and production has begun to resume now. NHU started maintenance in mid-June and is expected to finish by the end of August; ZMC began the overhaul in mid-July and is expected to finish by the end of September. VE market prices have turned from falling to stable now.

Amino Acid | Tryptophan

According to data, 1664 tons of tryptophan were imported in July, an increase of 22.8% month-on-month, an increase of 7.1% year-on-year, and 11,299 tons of tryptophan were imported from January to July, an increase of 22.1% year-on-year. Recently, due to the strong operation of soybean meal prices, the market price of tryptophan increased, the factory price rose to USD8-8.4/KG, and the trade market price was about USD8.4/KG, and the market heat increased, but because the price was at a high level, most of them were wait-based.

API | Doxycycline hydrochloride

Doxycycline hydrochloride, the recent price trend is weak, the factory is about to resume production, coupled with low demand and more terminal wait and see, there is no inventory space, the mainstream price of USD51-51.7/KG. The follow-up market is expected to remain weak.

Food additives | L-Carnitine

Recently, affected by the market situation, L-carnitine price adjustment, most of the export market transaction price is about USD12/KG. The subsequent price is expected to remain stable, and we will continue to pay attention to the market.
