## Vitamins to VEGA !

05th Sept., 2023

01

### Vitamin I B6

Since last year, the price of vitamin B6 has continued to decline, reaching around \$12.8/KG at the end of 2022, breaking through the previous low. On Feb. 9th, 2023, Tianxin stopped reporting during the Vitamin Summit, and other manufacturers followed suit and stopped reporting. On February 23th, manufacturers gradually resumed quotations and raised prices to \$16.5/KG, and market transactions increased. On May 30th, Tianxin released the B6 summer maintenance plan, which will be conducted from mid-June to the end of August. On June 15, Tianxin announced that it would stop reporting and signing vitamin B6 products from now on. On June 28th, DSM announced the permanent closure of the Shanghai Xinghuo vitamin B6 factory. On August 28th, Tianxin resumed its vitamin B6 feed-grade quotation, and the external quotation was raised to \$18.5/KG. Since the beginning of this year, the price of B6 has been rising all the way, and the transactions have continued to rise. Please pay more attention.

02

### Amino Acids I Threonine

Domestic manufacturers raised their quotations by \$1400/KG, the market is tight, and pre-orders are mainly issued. Domestic transactions are average, but exports are good. Factory quotations are between \$1430-1480/ton. Pay attention to the factory's subsequent shipments

03

### API I Colistin Sulfate

Since the factory price adjustment in the second quarter to the present, with the gradual consumption of low-priced goods in the market, the customer's price acceptance has also increased, and the purchase is mainly for rigid needs, and the market price has remained relatively stable. At present, the mainstream factory price is \$13.2-13.8/KG. It is expected to remain stable in the near future.

04

### Food Additive I Sucralose

For colistin sulfate, since the factory price adjustment in the second quarter to the present, with the gradual consumption of low-priced goods in the market, the customer's price acceptance has also increased, and the purchase is mainly for rigid needs, and the market price has remained relatively stable. At present, the mainstream factory price is \$13.2-13.8/KG. It is expected to remain stable in the near future.
