#### 3 API | Doxycycline hcl

For doxycycline hcl, some mainstream manufacturers are about to resume production quotations, but the recent demand is sluggish and there are many terminal wait-and-sees. The recent price trend is weak, and there is no inventory space. The mainstream quotation is USD50-50.3/KG. The peak season for industry stocking is coming soon, so stay tuned.

#### 4 Food Additives | D-Ribose

Recently, affected by the market demand, the transaction price of food additive acesulfame K has dropped to about 35 RMB/KG in the domestic market, and about 4.3 USD/KG in the foreign market. The possibility of further price reduction cannot be ruled out.
