VITAMINS TO VEGA

Vega, China vitamins manufacturer

8TH. SEP, 2023

Vitamin | Inositol

As it enters the off-season for aquatic products, the market demand has decreased compared to before. In addition, small factories have released production in the early stage, and the market supply is relatively sufficient. The price has declined some time ago; the current market price is stable at 110-125 yuan, exported FOB The price is around \$14-16.

Amino Acid | Tryptophan

According to market news, CJ's plant in Indonesia will suspend tryptophan production for two weeks in September to carry out regular maintenance and electrical work. In addition, CJ's plant in Piracicaba, Brazil, has added 10,000 tons/year tryptophan production capacity. The quotations of domestic manufacturers have been adjusted recently, users have signed more orders, and the factory delivery time is tight. We will pay attention to the factory's export order signing situation in the future.

API

Oxytetracycline, the current market price is around \$9, and is in the stage of depleting inventory. Suggest to pay attention to the raw material situation in the future. Oxytetracycline hcl, the market price is about \$10.8, the market price has been stable recently.

Food additives | Sucralose

Anhui Jinhe announced today that the cost of sucralose has been greatly increased due to the increase of raw material sugar and DMF, as well as the increase in coal prices with the advent of winter. From now on, the price will rise to FOB \$19/KG.
