VITAMINS TO VEGA

20TH, SEPT, 2023

01 Vitamin | Q10

Inner Mongolia Kingdomway recently received an approval from the Ecological Environment Bureau of Hohhot, agreeing that Kingdomway will build an annual output of 620 tons of Coenzyme Q10 renovation and expansion project in the industrial park of Kingdomway in Tuoketuo County, Hohhot, with a total investment of 320 million yuan.

02 Amino acid | Threonine

Recently, the domestic mainstream production factory quotation increased, the market supply is slightly tight, the inquiry has increased, but at present, because the price is too high, the end users are mostly wait-and-see, signing the order to get the goods is not much, and the factory is concerned about the order in the later stage.

03 API

Yesterday Apeloa's Subsidiary company Apeloa Kangyu held the opening ceremony of the first high-activity API workshop in the factory. Ma Xianghong, general manager of Kangyu said that the completion and opening of the two high-standard high-active API production lines marked that the company has added a new high-active API manufacturing platform to provide customers with high active API manufacturing platform to provide customers with high activity from clinical to commercial.

04 Food additives | L-Carnitine

Recently, affected by the market situation, L-carnitine price adjustment, most of the domestic manufacturers' prices are around USD11.7/KG, and the export market transaction price is around \$11.5 /KG. The subsequent price is expected to remain stable, and we will continue to pay attention to the market.
