VITAMINS TO VEGA

Vega, China vitamins manufacturer

22TH. SEP, 2023

Vitamin | Vitamin B1

This week, vitamin B1 continued to stop signing, the market to consume inventory. The current market inventory is mostly old goods, and the number of new goods is not much. Although the market transaction price is limited, there are also some customers actively replenishing. The current market quotation is broad, the export supply is less, follow up the factory quotation situation.

Amino Acid | Tryptophan

Domestic manufacturers' foreign quotation is relatively strong, the trade market price is USD9--9.4/KG, the overall market supply is tight, but because the price is at a high level, the market is slightly light, users purchase on demand, and pay attention to the factory shipment in the later stage.

API | Doxycycline HCL

Doxycycline hydrochloride, some mainstream manufacturers are about to resume production quotes, but the recent demand is sluggish, the terminal to see more, the recent price trend is weak, there is no inventory space, the current mainstream quote is near USD49.2/KG. Continue to pay attention later.
