VITAMINS TO VEGA

27TH, SEPT, 2023

## 01 Vitamin | Niacin/Nicotinamide

Niacin/Nicotinamide prices have shown signs of stabilizing recently. According to feedback from factories, the price of raw material are firm, supply has also been tightened, and the demands from customers have increased a bit. The current market price is around USD5-5.2/KG.

## 02 Amino acid | Threonine

The quotations of domestic factories for Threonine are quite strong, and the factories' delivery time is relatively tight. Market price is around USD1.52-1.59/KG. End users mostly are still waiting, and the factory delivery is needed to pay attention to.

## 03 API Florfenicol

Florfenicol, the price has been weak recently, the customers purchase depend on needs. The current market price is around USD 27.8-29.2/KG, and we will pay attention to market demand and factory production in the future.

## 04 Food additives | Aspartame

Recently, the food additive Aspartame has been affected by market demand and raw material costs. The transaction price to export is about USD10.5-11/KG. It is expected that the price will continue to remain stable in the future.
