Vitamins to VEGA!

Vega, China Vitamins Manufacturer

23th. Oct. 2023

Vitamins

The vitamin market is weak, and customers are mainly purchase according to the use. B1 factory resumed the quotation this week, raising the price by 20%, basically consistent with the market price; Calcium pantothenate, niacin/niacinamide re-entered the bottom interval; Biotin, B12, VC and other ultra-low, sustainable concern.

Amino Acids

Recently, Evonik (China) Investment Co., Ltd. and Vland Biotech Group signed a cooperation and joint venture establishment ceremony was held in Binzhou Huimin, Evonik and Vland cooperate and signed a joint venture, focusing on animal intestinal health.

API

This week, the overall trend of veterinary drug raw materials remains unchanged, it continues to run weakly. Market transactions in general, terminal and trade channels mostly wait-and-see, affected by the current supply and demand relationship, it is expected to be difficult to improve in the short term. Doxycycline, Tylosin market prices are weak running; The price of florfenicol continues to decline, and the recent decline has eased. Amoxicillin, colistin sulfate prices are more stable.

Food Additives

This week, the overall food plate showed a stable trend, and the price of sweetener series products sucralose/aspartame/Acesulhoney remained stable and normal shipments; Creatine monohydrate is affected by raw material control, the price rises, the current domestic mainstream manufacturers have stopped reporting, is expected to continue to rise in subsequent prices; L-carnitine series products affected by cost and demand prices rose, some factories stopped reporting.
