## Vitamins to VEGA!

30th. Oct. 2023

### 01

#### Vitamin

The vitamin market is weak, and customers are mainly purchase according to the demand. B1 market is temporarily stable; Calcium pantothenate, niacin/niacinamide still fell slowly, re-entering the bottom range; After the B2 price roller coaster, the mainstream factory raised the price again.

### 02

#### Amino Acid

This week, the amino acid market turnover is less, 98% lysine factory quotation slightly reduced, 70% lysine factory quotation fell sharply, the overall market is light, the market is mainly wait-and-see; For threonine, the mainstream factory price increase, but after the rise of the market turnover is not much, end users more wait-and-see mood, with the use of the supplement, follow-up attention to market turnover.

### 03

#### API

This week, the overall market of veterinary drug raw materials to maintain the trend of weak, the price of some varieties still did not stop falling, the overall market demand is general, the end users and traders wait and see more, the market confidence is insufficient. Doxycycline, florfenicol, tylosin and other products are weak, and the market price is still falling; Amoxicillin, oxytetracycline hydrochloride, lincomycin and other prices are relatively stable.

### 04

#### Food Additive

This week, the overall food plate showed a stable trend, creatine monohydrate affected by raw material control prices rose, some manufacturers are expected to resume quotation next week; L-carnitine series products affected by cost and demand prices rise.
