## Vitamins to VEGA!

31th. Oct. 2023

01

### Vitamin

From 23rd to 27th October, 2023, Heilongjiang Provincial Drug Audit and Inspection Centre conducted a 5-day on-site inspection of GMP compliance for the production line of Vitamin C and Vitamin C sodium of Heilongjiang Xinhecheng Biotechnology Co. The result of this inspection is "in compliance with GMP requirements".

02

### Amino Acid

Anhui Yinchuang Bio-technology Co., Ltd. will carry out technological transformation of the original 5,000 tonnes/year fermentation method glucosamine hydrochloride project, add some new equipment, and increase the small varieties of amino acid products, such as L-tryptophan, L-arginine and L-isoleucine. Flexible production of products will be realised in the future.

03

### API

Recently, Huisheng Biologicals indicated that the company's annual production capacity of 1,000 tonnes of tylosin and 600 tonnes of tylosin production line expansion project has been fully completed and put into production. At present, through continuous strain optimisation and process improvement, the production cost of tylosin is gradually converging to the average level of the industry. With the scale effect formed by the increase in capacity utilisation and further optimisation of strains and processes, it will play a positive role in the improvement of the company's profitability.

04

### Food Additive

Recently, affected by the market situation, the transaction price of L-carnitine BASE domestic mainstream manufacturers stabilised to about 130-140 RMB/KG, and the transaction price in foreign market is about 16-17.2 USD/KG. It is expected that the follow-up still shows a rising trend, we will continue to pay attention to the market situation.
