## Vitamins to VEGA!

Vega, China Vitamins Manufacturer

### News

#### 1 Vitamin | K3

Vitamin K3 delivery has been tight recently, and some factories have suspended quotations. Previously, K3 prices had been running at low levels. MSB's current export quotation is USD7-7.5/KG, and MNB's export quotation is USD8-8.5/KG.

#### 2 Amino Acids

Anhui BBCA L-alanine technical transformation (increasing threonine collinear products) project environmental impact report Second public announcement of environmental impact assessment: Utilize existing L-alanine production lines, equipment, and pipelines Carry out transformation to achieve flexible production of L-alanine and threonine. The maximum production capacity of L-alanine is 30,000 tons/year, and the maximum production capacity of threonine is 30,000 tons/year.

#### 3 API | Florfenicol

Florfenicol, after the trading suspension last week, domestic and foreign market inquiries increased compared with before. Inquiries from terminal traders increased, and factory quotations increased compared with the previous period. At present, shipments from individual factories are relatively tight, with the market price at \$26.2.

#### 4 Food Additives | L-carnitine

Recently, the price of the preservative sodium benzoate has remained stable. The transaction price in foreign markets is around USD1.3/KG. It is expected to maintain stable operation in the future.
