Vitamins to VEGA!

Vega, China Vitamins Manufacturer

11 th. Dec. 2023

Vitamins

The China Vitamin Forum was successfully concluded, and many experts and scholars in the industry gathered at the scene, and the attention of the vitamin market continued to increase. At present, VC and VE factories continue to stop reporting, B2 and K3 manufacturers raise prices, niacin/niacinamide stop reporting after the price increase, B1/B6 factories are limited to sign orders or stop quotation.

Amino Acids

This week, the overall market price of small varieties of amino acids is mainly stable, and the price of valine is stable and slightly decreased. The market price of valine trade is between USD2-2.25/KG, and the market turnover is average. The market price of isoleucine is between USD4.9-5KG. Tryptophan, the market delivery is tight, the price is at a high level, customers purchase on demand, it is expected that the price of tryptophan is stable and strong in the later stage.

API

Last week, the overall trend of veterinary drug raw materials remained weak and stable, the market demand is general, most customers are still based on just need to purchase, and some products are concerned. Doxycycline prices remained at USD43-44.3/KG last week; The delivery time of some factories of Florfenicol is relatively tight, and the price is about USD34.9-36.2/KG. In addition, Tylosin, Tilmicosin, Amoxicillin and other products maintain smooth operation. Follow up on market changes.

Food Additives

This week, the food plate as a whole showed a stable trend, and the price of sweetener series products sucralose/aspartame/Acesulhoney remained stable and shipped smoothly and normally. Creatine monohydrate prices remain stable this week, the mainstream manufacturers still stop quotation, delivery is difficult, and it is expected to shcedule to after New Year's Day, the follow-up continues to rise; The price of L-carnitine series products remained stable this week, and the subsequent price is expected to be bullish
