Vega, China Vitamins Manufacturer

VITAMINS TO VEGA

20th, Dec, 2023

## 01 Vitamin

Recently, Zhejiang Garden Biopharmaceutical Co., Ltd.'s annual output of 4,400MT of feed-grade vitamins project was accepted and announced on the relevant website. The scale of this project is to produce 1,500MT of feed grade thiamine hydrochloride (VB1), 1,500MT of feed grade vitamin B6 (VB6), 100MT of feed grade biotin (VB7), 1,000MT of feed grade calcium pantothenate, and 300MT of feed grade folic acid annually. 5 products are on the same line, flexible production. The existing 304 workshop will be used for technical transformation to form an annual production capacity of 4,400MT of feed-grade vitamin products.

## 02 Amino acid

Valine: The manufacturer's quotation remains stable, the market price is between USD2160-2290/MT, the market transactions are average, and the demand is weak. The valine market is expected to be weak in the short term.

## 03 API

The current market price of colistin sulfate is stable at USD14.1-14.26/KG. The price gap between factories is not large. The low-price supply in the market has been basically consumed, and customers' price acceptance is also good. Factory prices have remained strong in the near future. It is expected in the future Smooth operation.

## 04 Food additives

Recently, affected by the market demand, the transaction price of xanthan gum has stabilized at around USD2.85/KG. Subsequent prices continued to remain stable.
