VITAMIN

01

VB6 prices have continued to drop rapidly in recent weeks, with most customers adopting a wait-and-see attitude. Some manufacturers are offering around USD 13.71/KG, while market prices have fallen to USD 13–13.46/KG, nearing the previous bottom range.

AMINO ACID

02

On October 9, 2025, the European Food Safety Authority (EFSA) published a scientific opinion confirming that L-Isoleucine produced by Anhui Huaheng Biotechnology Co., Ltd. through fermentation with *E. coli* strain CCTCC M 20231916—submitted by Kempex Holland Ltd.—is safe and effective for use as a feed additive for all animal species. On September 30, 2025, Anhui Huaheng Biotechnology Co., Ltd. filed its prospectus for listing on the Hong Kong Main Board. The company has been listed on the STAR Market of the Shanghai Stock Exchange since April 22, 2021 (Stock Code: 688639.SH), with a total market capitalization of approximately USD 1.18 billion as of September 30, 2025.

API

03

In early October, factories tightened quotations and delivery schedules for Doxycycline Hydrochloride, leading to minor price fluctuations from the previous level of around USD 43.38/KG. Prices are expected to change further, and buyers should closely monitor the market when planning purchases.

Meanwhile, Shandong Sirui Pharmaceutical Co., Ltd a subsidiary of Shandong Sino Bio-technology Co., Ltd., received the Certificate of Suitability (CEP) from the European Directorate for the Quality of Medicines (EDQM) for Dexamethasone Sodium Phosphate API, confirming compliance with European Pharmacopoeia standards and enabling broader access to global markets.

FOOD ADDITIVE

04

Starting from October 1, 2025, new regulatory standards for food and health supplements have come into effect, including testing methods for melatonin, glycyrrhizic acid, and chlorogenic acid, as well as local food safety standards for bamboo leaf powder and pomelo flowers. These updates aim to strengthen product quality control and ensure regulatory consistency across the food industry.
