VITAMIN

01

EASTON Pharmaceuticals Co., Ltd.'s subsidiary Evive Biotech Ltd. recently received marketing authorization for Ryzneuta from the Thai Food and Drug Administration (FDA THAI), marking the company's successful expansion into the second-largest pharmaceutical market in Southeast Asia.

To date, Ryzneuta has been approved in over 30 countries worldwide, with several additional markets under review or pending submission. Alongside Ryzneuta, EASTON also has multiple approved formulations in the Thai market, including SciLin / Gensulin (recombinant human insulin injection), SciTropin A (recombinant human growth hormone injection), and Zometa (zoledronic acid concentrate for solution for infusion).

AMINO ACID

02

The methionine market remains on a slow downward trend, with limited trading activity as buyers mainly purchase on demand. Current quotations for solid methionine range between USD 2.65–2.69/KG. The short-term outlook suggests a continued weak market performance.

API

03

The supply of oxytetracycline hydrochloride remains tight among major manufacturers, with transaction prices ranging from USD 12.21 to 12.71/KG. Spot availability in trading channels is limited, and prices are expected to remain firm in the short term. With the upcoming API Exhibition, it will be important to monitor upstream raw material supply, production status, and demand trends.

FOOD ADDITIVE

04

From October 1, 2025, new testing methods for melatonin, glycyrrhizic acid, and chlorogenic acid, as well as updated regional food safety standards (including bamboo leaf powder and pomelo flower), officially took effect.

Sirio Pharma Co., Ltd. announced that in Q3 2025, the company obtained 4 new invention patents, 1 health food registration, and 22 filings. As of September 30, 2025, Sirio holds 171 patents (including 98 invention patents) and 433 health food approvals. The newly approved product, TianCan® Maca Chewable Tablets, is valid until June 18, 2030, with three registered products converted to filing status.
