VITAMIN

01

According to market sources, a major Chinese vitamin E producer has implemented allocation controls in certain regional markets, raising contract prices to USD 11.7/kg. Customers are required to submit demand plans and collect goods according to scheduled allocations. As a result, effective market supply has tightened further and the overall market remains in a constrained supply situation.

AMINO ACID

02

This week, the Harbin branch of Daesang Corporation (Beijing) quoted SEWON brand products at USD 4.69/kg for 98% tryptophan, USD 2.28/kg for 50% tryptophan, USD 1.95/kg for 40% tryptophan, and USD 3.12/kg for arginine.

API

03

Some major producers of tylosin tartrate and tilmicosin phosphate have suspended quotations and new contracts after prices previously reached yearly lows. Although demand remains relatively weak, prices are showing signs of stabilization with international transaction levels moving upward. Current market prices are around USD 34.88/kg for tylosin tartrate and USD 38.39/kg for tilmicosin phosphate, with further gradual increases expected.

FOOD ADDITIVE

04

- According to Fufeng Group Limited, xanthan gum prices have been increased by USD 65/MT due to rising raw material costs and tightening supply, with priority supply to key customers.
- The Food Ingredients China 2026 will take place March 17–19 at the National Exhibition and Convention Center in Shanghai, covering 170,000 m² of exhibition space across the full food ingredient supply chain. During the event, products such as inositol, vitamin B1, vitamin C, and taurine—widely used in the food industry—are drawing strong market attention. Prumix will also be present to meet partners and discuss industry trends and cooperation opportunities.
