VITAMIN

01

- According to market feedback, from April 8, a major Chinese producer resumed quotations and order intake for VA 500 and VE 50%. Feed-grade VE 50% is quoted at USD19.5/kg, while feed-grade VA 500 is at USD 23.4/kg. The supplier adopts a “limited new orders + existing contract allocation” strategy. For standalone orders, the transaction price of VA 500 and VE 50% is USD 16.9/kg.

AMINO ACID

02

On April 8, Meihua Group raised threonine prices to USD 1367/MT, mainly supplying long-term customers. On the same day, Ningxia Eppen Biotech Co., Ltd. increased threonine prices by USD 39/MT, prioritizing stable customers.

API

03

Doxycycline HCl market sentiment strengthened further this week, supported by tight supply and recovering demand. Current transaction prices are around USD 46.2–46.85/kg, reaching the highest level in 2026. Short-term procurement is advised to remain demand-driven.

FOOD ADDITIVE

04

Chenguang Biotech Group Co., Ltd. released its 2025 annual report, reporting revenue of USD 960.32 million and net profit of USD 54.03 million, up 292.21% year-on-year. Its core plant extract business maintained steady growth, with leading global market shares in products such as capsanthin and lutein, while improvements in cottonseed operations significantly enhanced overall profitability.
