## VITAMIN

01

This month, the vitamin B6 market has been operating in a weak manner. The market as a whole has remained stable, with weak demand. The current market price is between USD13.5 and USD13.8 per KG, having dropped again to the historical low.

## AMINO ACID

02

Lysine sulfate has seen a relatively stable market price recently. Some manufacturers are currently experiencing losses. They have a strong desire to maintain the current price. Currently, the price is at a relatively low level and has basically stopped falling. There is limited room for further decline. The market is gradually signing contracts and purchasing goods. The market transactions are relatively stable. The price is expected to remain stable in the near future.

## API

03

Recently, the Shandong Sirui Pharmaceutical Co., Ltd. has announced the acceptance and public announcement of the new project for raw materials and intermediates. The total investment of this project is 170 million yuan.

The first phase of the project is planned to produce 0.4 tons of acitretin acetate, 0.4 tons of triamcinolone acetonide, 1.6 tons of methylprednisolone succinate, 1.76 tons of methylprednisolone sodium succinate, 0.4 tons of 16 $\alpha$ -hydroxy prednisolone, and 50 tons of dexamethasone.

## FOOD ADDITIVE

04

Recently, Chengda Pharmaceutical stated in response to the questions from the investors that the revenue of the left-carnitine product line would reach 163 million yuan in 2025, representing a year-on-year growth of 13.94%. As a traditional strong business of the company, it demonstrates strong resilience, with both quantity and price increasing simultaneously. It has maintained a stable growth momentum in the global market. The left-carnitine products of Chengda Pharmaceutical are available in different types, including L-carnitine, L-carnitine hydrochloride, acetyl L-carnitine hydrochloride, propionyl L-carnitine hydrochloride, DL-carnitine hydrochloride, L-carnitine tartrate, L-carnitine fumarate, L-carnitine whey protein, L-carnitine (50%), and pharmaceutical-grade L-carnitine (levocarnitine).
