VITAMIN

01

The niacinamide market remains quiet, with prices holding relatively stable. Mainstream producer quotations are around USD5.55/KG, while spot transactions for small volumes are reported at approximately USD 5.28-5.55/KG. Prices are expected to fluctuate within a narrow range in the near term.

AMINO ACID

02

On July 7, AHB updated its feed-grade amino acid quotations, with valine starting at USD 1,520/MT, arginine at USD 2,640/MT, and tryptophan at USD 3,765/MT. The market will continue to monitor future pricing and downstream demand.

API

03

- On July 7, Tianjin Tianyao Pharmaceuticals announced that its betamethasone API had received marketing approval from Brazil's health authority for the treatment of various inflammatory and autoimmune diseases.
- Meanwhile, low-priced Amoxicillin supply continues to decline, with mainstream producer quotations remaining firm. Current market prices are around USD 23.1–23.8/KG and are expected to remain stable in the near term.

FOOD ADDITIVE

04

Dongxiao Biotechnology has filed for an IPO on the Beijing Stock Exchange, seeking to raise approximately USD 248.01 million. The proceeds will support the expansion of functional sugar alcohol production, high-end amino acid manufacturing, specialty amino acid flexible production lines, an innovation and R&D center, and working capital. Specifically, the company plans to invest USD 74.08 million in functional sugar alcohol upgrades, USD 29.01 million in high-end amino acid facilities, USD 71.13 million in specialty amino acid production, USD 29.46 million in its R&D center, and USD 44.18 million as working capital. For the first half of 2026, the company expects revenue of USD 556.70–596.47 million and net profit of USD 16.20–22.09 million.
