VITAMIN

01

Northeast Pharmaceutical API Vitamin C received the CEP certificate issued by the European Medicines Quality Agency.

AMINO ACID

02

At present, the quotation of solid Methionine manufacturers is stable, the transaction price is slightly lower, the trade market quotation is stable, and the inquiry is less. The quotation of liquid Methionine enterprises is stable, the transaction is not much, and the price of methionine is expected to be weakly stable and adjusted.

API

03

On June 19, Lianhuan Pharma announced that the company recently received the "Notification of Application for Approval of the Listing of Chemical raw Materials" issued by the State Drug Administration on the raw material drug Shakubatryl valsartan sodium. The drug is used to treat chronic heart failure and essential hypertension with reduced ejection fraction, and has the effect of significantly reducing all-cause mortality, cardiovascular mortality and hospitalization rate of heart failure in patients with chronic heart failure.

FOOD ADDITIVE

04

Recently, the nutritional additive creatine monohydrate mainstream factory normal shipment to mid-July, the current mainstream manufacturer prices remain stable, the future price does not rule out the possibility of slow decline.
