Vitamins to VEGA!

2nd. July. 2024

VITAMIN

01

Recently, the price of isobutyraldehyde, the raw material of Calcium Pantothenate, has risen strongly, up 60% in less than two months. So, the price of B5 has stopped falling and stabilized; as the price is at the historical bottom and the vitamin market is relatively active overall, some customers have begun to stock up. The current market price is around USD7.2/KG.

AMINO ACID

02

Shandong NHU Amino Acid Co., Ltd.'s annual production of 250,000 tons of methionine (Phase II) project (Phase I) completed environmental protection acceptance monitoring report public announcement: Shandong NHU Amino Acid Co., Ltd.'s annual production of 250,000 tons of methionine (Phase II) project (Phase I).

API

03

Jiangsu Chengxin Pharmaceutical Co., Ltd. successfully passed the World Health Organization (WHO) prequalification (PQ) on-site audit in June 2024, once again proving the excellence of the company's pharmaceutical production process and quality management system. During the 2024 on-site audit, the WHO expert team conducted a comprehensive inspection of Jiangsu Chengxin Pharmaceutical's production line, quality control process, warehouse management, etc. Through field visits and document reviews, the experts highly praised Jiangsu Chengxin Pharmaceutical's production capacity, management level and product quality, and confirmed that it continues to meet the international standards of WHO PQ certification.

FOOD ADDITIVE

04

Recently, affected by the market situation, the transaction price of mannitol has stabilized at around USD3.3-3.4/KG. The delivery period is expected to be about one month, and it is expected to show a stable trend in the future. We will continue to pay attention to the market situation.
