Vitamins to VEGA!

24th. July. 2024

VITAMIN | Vitamin B12

01

On July 17, 2024, vitamin B12 (cyocyanocobalamin) produced by the fermentation of *Xiphoxium glabra* CGMCC 19596 in Hebei Huarong passed the scientific review of the European Food Safety Authority (EFSA), which found that the vitamin B12 does not cause safety problems for the production strain and can be used as a nutritional additive for all animal species through feed addition.

AMINO ACID | Threonine

02

Recently, the threonine factory quotation is still strong, but the transaction speed is slowing down, it is expected that the threonine market is stable in the short term, according to customs data, the export of threonine 58,000 tons in June, a decrease of 10.6% from the previous year, an increase of 33.6%; From January to June, the cumulative export of 362,000 tons, an increase of 42.7%..

API

03

Recently, Chifeng Ecological Environment Bureau issued a public notice on the acceptance of the pharmaceutical intermediate construction project of Inner Mongolia Jiafu Chemical Co., LTD. (Annual output of 3,000 tons of cyclopentanone, 1,000 tons of 2-bromoethylbenzene, 900 tons of P-fluorobenzene) (report), the construction site is located in the industrial park of Linxi County, Chifeng City.

FOOD ADDITIVE

04

Recently, the food additive potassium sorbate is affected by market demand, and the export transaction price is about USD2.3-2.4/KG, and the price of potassium sorbate is stable in the future.
