Vitamins to VEGA!

26th. August. 2024

VITAMIN I

01

Last week, the vitamin market continued to be active. Basf informed the vitamin distribution program, VA, VE supply is limited, the factory raised prices, the transaction increased; Niacin, niacinamide market is tight, the market supply is small, the channel is reluctant to sell; Vitamin D3, vitamin B1 factory increase prices, transaction price moved up.

AMINO ACID | Methionine

02

Shandong NHU methionine integration promotion project environmental impact assessment publicity before approval: After the completion of the transformation, the methionine production capacity of the first phase of the plant expanded from 50,000 tons/year to 70,000 tons/year, the methionine production capacity of the second phase of the plant expanded from 100,000 tons/year to 150,000 tons/year, the solid methionine production capacity of the plant will reach 370,000 tons/year; At the same time, in order to run the production facilities in the plant more efficiently and economically, the corresponding supporting devices are integrated and optimized simultaneously.

API I

03

Last week, the veterinary drug raw material market as a whole maintained a stable operation, the price of many varieties of bottom shock finishing, the overall market demand is general, still purchase on demand mainly. Tiamulin, Tilmicosin, Tylosin supply is relatively tight recently, the market attention is higher, the price is rising. Lincomycin, doxycycline hydrochloride prices firm, florfenicol, oxytetracycline's price are at bottom; There is no significant change in the overall market supply and demand relationship, and continue to pay attention to it.

FOOD ADDITIVE

04

Last week, sucralose, a series of sweetener products in the food plate, is affected by the market at present, the domestic manufacturers have stopped quotation, and the subsequent price increase cannot be ruled out. Acesulmi/aspartame price are stable; The mainstream manufacturers of creatine monohydrate normally ship, some manufacturers delivery have scheduled to early September, the subsequent price does not rule out the possibility of continuing to fall; Preservative products sodium benzoate/Benzoic acid/potassium sorbate/sorbate prices remain stable, manufacturers deliver normally; Thickening agent products xanthan gum by the market price to maintain stability.
