## VITAMIN

01

On February 20, Hebei Huarong Pharmaceutical announced that it would suspend the quotation of its vitamin B12 series products. Over the past two years, the market prices of vitamin B12 feed, cyanocobalamin and methylcobalamin have been at historical lows. The market prices have begun to show a slight upward trend, and the market transaction rate has increased.

## AMINO ACID

02

Threonine: Manufacturers' quotations are temporarily stable, and the market is sluggish. At present, the price has fallen to a low level, and the factory's sentiment to support the price is gradually rising. The quotation is stable, and some end users have begun to purchase. The orders are mainly based on just-in-time needs. The market price has stopped falling. Pay attention to the progress of subsequent factory orders.

## API

03

Albendazole: This week, the prices of mainstream factories have risen, and some manufacturers have stopped reporting and signing. The market price has risen to around USD19.9/kg. Since the end of 2024, the market price has continued to be at the bottom. It is judged that the price may rise in the future. Please stay tuned.

## FOOD ADDITIVE

04

Recently, Dutch dairy giant FrieslandCampina released its 2024 financial report. Data showed that FrieslandCampina's operating profit increased to 527 million euros and its net profit increased to 321 million euros. Due to unfavorable exchange rate effects, revenue fell slightly by 1.1% to 12.9 billion euros. In constant currency terms, revenue increased by 1.3% to 13.2 billion euros.
