VITAMIN   01

The inositol market has been running steadily with limited demand. Competition remains intense at the bidding level, but higher costs and strong price-holding intentions from factories are keeping prices firm. Current quotations range from USD 2.87–3.12/kg, with noticeable differences among producers.

AMINO ACID   02

According to market sources, Ningxia Unisplendour Tianhua Methionine Co., Ltd. will shut down its methionine production line for annual maintenance starting September 3, with the process expected to last about 50 days.

API   03

Guobang Pharma Ltd. recently disclosed its API and intermediates expansion and technical renovation project in an environmental impact assessment filing. The project will utilize existing land and facilities at its Plant 6 and Plant 8, along with new warehouse construction, and will add reactors, three-in-one systems, rectification towers, and supporting equipment. Once complete, the facility will be capable of producing 10 t/a eltrombopag olamine, 5 t/a brexpiprazole, 50 t/a edoxaban tosylate, 20 t/a ziprasidone HCl, 5 t/a ziprasidone mesylate, 300 t/a sitagliptin phosphate, 10 t/a semduramicin, 30 t/a toltrazuril, 80 t/a diclazuril, 200 t/a norfloxacin, 10 t/a orbifloxacin, 1,600 t/a ciprofloxacin HCl, 3,010 t/a erythromycin oxime, and 804 t/a refined erythromycin oxime, with an annual by-product of 1,984 t sodium acetate solution.

FOOD ADDITIVE   04

Microcyto Biotechnology Co., Ltd. and Cargill signed a strategic cooperation agreement at the Beidaihe New District Biomanufacturing Park, marking a new stage in their collaboration on sugar reduction and functional sugars. Under the agreement, the two parties will establish a long-term partnership in the promotion, production cooperation, and application development of products such as allulose and other functional sugar solutions.
