VITAMIN

01

- According to market sources, since March 26, Zhejiang Medicine Co., Ltd. has suspended quotations and order signing for feed-grade Vitamins A, E, and D3.
- For Vitamin B3, following previous price increases in niacinamide, Anhui Redpont Biotech has halted quotations this week. Market transaction prices are around USD 6/kg, showing a firm trend. With producers focusing on order fulfillment and tight niacin supply, further price increases cannot be ruled out.

AMINO ACID

02

Valine prices remain stable, with transactions mainly negotiated. Downstream users have largely completed restocking and are currently consuming inventory, purchasing as needed. Supply-demand remains balanced, and prices are expected to stay stable in the short term.

API

03

Tylosin tartrate and tilmicosin phosphate are facing tight delivery schedules from major producers. Despite softer demand, the market shows signs of stabilization, with international transaction prices trending upward. Prices are expected to fluctuate upward, currently Tylosin Tartrate price at around USD34.5/kg and Tilmicosin phosphate market price at around USD 37.9/kg.

FOOD ADDITIVE

04

Recently, JD Health and Qingdao Double Whale Pharmaceutical expanded their strategic cooperation, focusing on bone nutrition. The partnership aims to enrich the supply of adult Vitamin D and related products. With strong expertise in vitamin product development and manufacturing, Double Whale is expected to further expand its presence in the all-age bone health market.
