VITAMIN

01

Market sources indicate Hebei Yuxing Biotechnology plans to shut down its Vitamin B12 production line for maintenance starting at the end of July, with the outage expected to last two months. Current mainstream offers for 1% feed-grade Vitamin B12 remain firm within the range of USD 12.68-13.6/KG, and quotations in the trading market are keeping steady.

AMINO ACID

02

According to Evonik's official announcement, its MetAMINO® (DL-Methionine) production site in Mobile, Alabama, USA has realized on-site production of methanethiol, a key intermediate. Together with its hubs in Antwerp (Belgium) and Singapore, the site forms an integrated upstream supply chain. The optimized production line cuts the carbon footprint of DL-Methionine by approximately 7%, lowers hazardous chemical transportation risks, and strengthens stable supply capacity for the Americas.

API

03

Apeloa Pharmaceutical announced that its wholly-owned subsidiary, Zhejiang Apeloa Jiayuan Pharmaceutical Co., Ltd., has received the Certificate of Suitability (CEP) for Gabapentin API issued by the European Directorate for the Quality of Medicines & HealthCare (EDQM).

FOOD ADDITIVE

04

Driven by raw material costs and overall market sentiment, prices of creatine monohydrate (a nutritional fortifier) have stabilized recently. Factory quotations hold at around USD 2.9–3.1/KG with shipments scheduled for early August. Price hikes cannot be ruled out in the future.
