VITAMIN

01

Recently, the Vitamin B6 market has remained weak. Mainstream new-batch transaction prices from trading channels are around USD 13–13.2/KG, with some quotations at USD 13.34–13.47/KG. Downstream demand remains soft, with buyers mainly purchasing based on immediate needs.

AMINO ACID

02

According to the latest update from XMYG Biochemical, Threonine is quoted at USD 1,064/MT, while Tryptophan is quoted at USD 4,070/MT.

API

03

- On July 23, Newland Pharmaceutical announced that its Amlodipine Besylate API received approval from China's National Medical Products Administration, further strengthening the company's cardiovascular API portfolio.
- Recently, Amoxicillin quotations from major producers remained stable, with downstream purchasing mainly driven by immediate demand. Current market prices are around USD 23.2-23.8/KG, and prices are expected to remain stable in the near term, with attention on raw material costs and producer supply.

FOOD ADDITIVE

04

Recently, China's National Health Commission officially accepted applications for two new food ingredients, Dihydroquercetin and N-Acetyl-D-Glucosamine, which have entered the safety evaluation process. Both ingredients are mainly used in antioxidant and joint health-related dietary supplements.
