VITAMIN

01

According to the latest market feedback, all Vitamin E producers in China have suspended quotations and stopped accepting new orders since July 28. Following this news, market sentiment has strengthened rapidly, with inquiry activity increasing significantly and trial quotations rising by around 10% compared with previous levels. Globally, no significant changes have been observed in Europe and North America, while inquiries from Southeast Asia, Central Asia, and Northeast Asia have started to increase.

AMINO ACID

02

On July 28, AHB Biotechnology announced plans for maintenance shutdowns at its Bayan Nur, Qinhuangdao, and Chifeng production bases starting from August 1, with an expected duration of 3–4 weeks. During the maintenance period, the company will prioritize ensuring supply for key customers.

API

03

This week, Tilmicosin Phosphate and Tylosin Tartrate producers have shown stronger price-support sentiment. Market inquiries have increased, while the recovery of domestic pork prices has provided additional support. Prices are expected to gradually bottom out and recover in the near term. Current reference prices are around USD 30.4–31.1/KG for Tylosin Tartrate Powder and USD 35–35.7/KG for Tilmicosin Phosphate.

FOOD ADDITIVE

04

China's State Administration for Market Regulation has released a draft regulation on the registration and filing requirements for health foods using probiotic ingredients for public consultation. The revision updates the previous 2005 regulation on probiotic health food applications and reviews, reflecting recent changes in probiotic-related regulatory management. Public feedback will be accepted until August 24.
