VITAMIN

01

Inositol prices have stabilized after a previous decline driven by weak demand and new capacity. Current prices are around USD 4.0/KG in the trading market and USD 4.62/KG from producers. Downstream purchasing remains need-based, with transactions improving slightly. Prices are expected to remain weak but stable in the short term.

AMINO ACID

02

Meihua Group raised its quotations for Threonine to USD 951/MT, up USD 13.21/MT, and L-Lysine 98% to USD 865/MT, also up USD 13.21/MT.

API

03

On September 28, Cheng Yi Pharmaceutical announced that its subsidiary, Fujian Huakang Pharmaceutical Co., Ltd., successfully passed a GMP compliance inspection conducted by the Fujian Provincial Medical Products Administration from August 25 to 27, 2026. The inspection confirmed that the production and quality management of its newly added Glucosamine Hydrochloride API production line in Workshop B09 comply with the 2010 Revision of Good Manufacturing Practice (GMP) and its annexes. The line has a designed annual production capacity of 2,000 MT.

FOOD ADDITIVE

04

Jiangxi Fushine Pharmaceutical stated that its core product FuNext® Protein has entered nearly 30 countries globally following its approval as a novel food ingredient in China in November 2025. Its 20,000 MT/year production project is expected to be completed by the end of 2026, with both B2B and consumer markets under development.
