VITAMIN

01

- Vitamin C remains firm, with major producers suspending quotations and showing strong price support. Low-priced goods are increasingly difficult to find through trading channels, supporting the market. Current transactions are around USD 2.8–3.0/kg.
- Tianxin Pharmaceutical is expanding its existing alanine production facilities in Leping Industrial Park, Jiangxi, adding 7,000 MT/year of capacity. The project involves upgrading the existing 5,000 MT/year production line and adding equipment, bringing total plant capacity to 12,000 MT/year. Total investment is approximately USD 3.59 million, including USD 71,750 in environmental protection investment.

AMINO ACID

02

According to market sources, Eppen Biotech has raised its Threonine price by USD 13.2/MT, effective immediately, prioritizing supply to long-term strategic customers.

API

03

- Prices of Tilmicodin Phosphate and Tylosin Tartrate products have continued to approach bottom levels. Producers are actively supporting prices and have announced plans to reduce production. With year-end stocking approaching, prices are expected to remain in bottom-range consolidation. Reference prices are USD 29/kg for Tylosin Tartrate powder and USD 33.7/kg for Tilmicodin Phosphate.

FOOD ADDITIVE

04

Chenguang Biotech Group Co., Ltd. announced that it had received three trademark registration certificates from China's National Intellectual Property Administration, covering approved goods and services in Classes 1, 2, and 30, each valid for 10 years. The company also received seven domestic patent certificates, including six invention patents and three utility model patents, covering plant growth regulation, natural pigment production, and plant extraction, as well as two U.S. patent grants related to stevia component preparation and cannabidiol extraction. Except for two patents, the patents have been applied in production, strengthening the company's intellectual property portfolio and competitive position.
