VITAMIN 01

According to market sources, Tianli Pharmaceutical raised its Vitamin C quotation to USD 4.00/kg, effective October 26.

AMINO ACID 02

Arginine producer quotations remained stable at USD 2.61-2.82/kg. Supply remained steady, while downstream demand was weak. Prices are expected to remain stable to weak in the short term.

API 03

- Huahai Jiancheng Pharmaceutical's environmental impact assessment approval opinion for a new construction project was published on October 23. The project involves an investment of approximately USD 1.06 million at the company's existing site. Upon completion, the facility is expected to have annual production capacities of 140 metric tons of Amlodipine Besylate, 20 metric tons of Sacubitril Sodium, 40 metric tons of Sacubitril Valsartan Sodium, and 70 metric tons of Sertraline Hydrochloride. The project is expected to generate an annual industrial output value of approximately USD 25.61 million.
- Tianjin Tianyao Pharmaceuticals Co., Ltd. announced that it had received the results of a GMP on-site inspection by South Korea's Ministry of Food and Drug Safety (MFDS). From September 8 to 10, its production site at No. 19 Xinye 9th Street, West Zone, Tianjin Economic-Technological Development Area, underwent a GMP inspection for Methionine API and passed with zero deficiencies.

FOOD ADDITIVE 04

- China's General Administration of Customs (GAC) issued a consumer advisory after Australia's Therapeutic Goods Administration (TGA) reported excessive lead levels in two batches of Swisse "Beauty Skin Regeneration+." The affected batches are subject to a recall.
- Swisse Australia stated that routine internal testing had identified slightly elevated lead levels in batches 144520 and 143217, prompting a voluntary recall. According to the company, the affected batches were sold only in Australia and had never entered the Chinese market. The GAC also stated that no imports of the affected products through general trade channels had been identified in China.
