VITAMIN 01

The vitamin B1 market stayed weak. Producer quotations held above USD 26.8/kg, whereas offers for freshly manufactured B1 MONO from traders were assessed at around USD 26.15/kg, with some lower-priced offers falling to approximately USD 25.9/kg.

AMINO ACID 02

On November 10, CJ Biotechnology released its Q3 2026 financial results. Excluding CJ Logistics, the company reported sales of KRW 4.23 trillion and operating profit of KRW 203 billion. Its Advanced Materials division recorded sales of KRW 1.423 trillion, up 7.0% year on year, and operating profit of KRW 108.5 billion, up 36.0%. Growth in specialty amino acids, particularly Arginine, and expanded Lysine sales in North America supported the division's performance.

API 03

- Shyndec Pharmaceutical announced that its subsidiary, Sinopharm Chuankang Pharmaceutical, had received a GMP compliance inspection notice from the Sichuan Medical Products Administration. The newly renovated Tacrolimus API production line passed the inspection and met China's GMP requirements.
- China's Ministry of Agriculture and Rural Affairs approved a new inactivated vaccine against lumpy skin disease in cattle (strain NMG), jointly developed by subsidiaries of Jinhe Biotechnology, JINYU Baoling BIO-PHARMACEUTICAL, and Luoyang Worpson Bioengineering. The approval marks progress in the development of domestic veterinary vaccines.

FOOD ADDITIVE 04

Miaofei (Inner Mongolia) Food Technology's dairy deep-processing project recently broke ground in Hohhot Economic and Technological Development Zone. The facility will focus on natural cheese, whey protein, and functional foods for nutrition and health applications. With a total investment of RMB 1 billion (approximately USD 149.70 million), the project is expected to generate annual output value of RMB 2 billion (approximately USD 299.40 million).
